Tilt UP concrete construction offers a cost-effective alternative to steel or stick buildings. The concrete shell of a tilt up building offers unmatched protection from severe weather, fire, vandalism, rot, mold, and termites-providing a virtually maintenance free exterior!

Speakers Jeff Blasi- Lithko, Jim Baty- Tilt Up Concrete Association and Karen Hand- Needham DBS will discuss Why Tilt Up and Design and Construction Considerations. After lunch- case studies on 2 Tilt Up Projects followed by an Q & A.
