

# Health & Safety Signage Templates for PosterArtist

*We are all in this together.* Help the public follow safety guidelines by creating signs, posters, and banners with PosterArtist & PosterArtist Lite (PC only) software. As restrictions are lifted and businesses begin to move forward, Canon is dedicated to providing customers with the tools to create and print critical communication to let your customers know what you are doing in response to Covid-19. Canon's PosterArtist Lite software is available for download at no additional charge, or purchase the Full Version of the PosterArtist software for MSRP \$395.

## Featuring added images and clipart that include:

- Instructions on handwashing
- Face coverings
- Social distancing
- Curbside pickup
- Hours of operation
- And more!

New templates will populate under the "Signs & Notices" category when program is connected to the internet. User needs to click on image to download to program

## With templates that include:

- Information inspired by current CDC guidelines
- Designs for wall and floor display
- Signs for a variety of venues and applications
  - Can be used for Grocery Store, Restaurants, Retail, Hospitals, Corporate Offices, Government Institutions, & More

Designs for checkout line, floor markers, and counter signs

# Templates Can Be Easily Personalized With Your Own Messaging

PosterArtist and PosterArtist Lite gives you the ability to customize these predesigned templates or print these directly for immediate use on a large variety of Canon media including the following recommended media:

- Using **Repositionable Peel & Stick** media, you can easily hang posters on a variety of surfaces and replace your messaging as needed.
- With **Water Resistant** media and Canon pigment ink, your messaging is safe up to six months outdoors.
- Create banners with our durable **vinyl** media.

## Advanced Features

*Easy to understand, simple to use.*

### Auto Design

With PosterArtist's Auto Design feature there's no reason to employ a professional designer in-house. Just use Canon's Dynamic Layout Engine Technology.

- 1 Select a template
- 2 Choose a style
- 3 Input text and images
- 4 You're done!

### Quick Copy

**A quick solution for enlarging documents!**

Using a Canon CanoScan® scanner (*not included*), you can easily enlarge a letter-sized document to poster size with the click of a button!

### Page Capture

Use Page Capture to transform your Microsoft Word® documents and PowerPoint® slides into a poster. After importing the files into PosterArtist, simply select the output size, add text, and send to the printer!

### Variable Data

**Save time when creating multiple posters!**

Variable Data simplifies the process by linking your poster to a database allowing for quick and easy personalization of signage, providing for huge time-saving opportunities for businesses.
